4e1

1. (Third Amended) A carriage for an inkjet printer comprising:
a mounting portion;
a printhead operably secured to said mounting portion;
an ink reservoir pivotally secured to said mounting portion, said ink reservoir
having an engaged position in which the ink reservoir is in fluid communication with
said printhead when said ink reservoir is in said secured position, and an open position,
in which the ink reservoir is pivoted away from said printhead such that said printhead
may be accessed from above said mounting portion without removing said ink reservoir
from said secured position.

2. The carriage for an inkjet printer of claim 1, further including:
a plurality of ink reservoirs; and
a plurality of printheads;
wherein one of each plurality of ink reservoirs is in fluid communication with a
